Dr. Craig and Staff:

I would like to thank you for such great service for my husband's tooth extraction. From the office staff to the surgery and recover itself, things were phenomenal.

So often these days, it seems as if employees sometimes don't care or have bad attitudes and don't do their job well. Not the case with you and your staff.

I so admire your Army service AND training! You're the best.

Thanks again,

C. M.

PS: Feel free to use my initials and comments anywhere necessary. I will be referring friends and let Dr. Gary Mayfield know of Joe's experience as well.

God Bless You!
